

## Three valuable numbers

The domain name 345.com has been recently estimated at \$ 800 thousand. Earlier this year MostWantedDomains.com sold the domain to unknown Chinese buyer. According to the notes of Whois, a domain name was registered in May 2002. Now the domain is in the parking.

This year it is the first transaction at such level. At the moment it is the biggest deal, but it does not look so impressive against the backdrop of last year.

Let us remind Top 10 sales of 2014 in domain .COM, it was looked like this:

Z.com - \$ 6,8 million  
Medicare.com - \$ 4,8 million  
MI.com - \$ 3,6 million  
Whisky.com - \$ 3,1 million  
Youxi.com - \$ 2,4 million  
37.com - \$ 2 million  
Power.com - \$ 1,2 million  
MM.com - \$ 1,2 million  
QNB.com - \$ 1 million

But in 2013, the largest of the public transactions was the sale of domain IG.com for \$ 4.8 million.

Earlier, in late 2013 for 345.com was offered \$ 360 thousands, but all proposals have been swept away.
